| | Consequently it has not been possible to consider the validity of the priority claim. This opinion has nevertheless been established on the assumption that the relevant date is the claimed priority date. | | | | | | | | | | |
| 2. | | ☐ This opinion has been established as if no priority had been claimed due to the fact that the priority claim has been found invalid (Rules 43 <i>bis</i> .1 and 64.1). Thus for the purposes of this opinion, the international filing date indicated above is considered to be the relevant date. | | | | | | | | | |

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY (SEPARATE SHEET)

International application No.

PCT/GB2004/002873

Section V

1. Reference is made to the following documents:

D1: US 2003/003163 A1 (HODOSH MILTON) 2 January 2003 (2003-01-02) D2: US-A-5 100 653 (CAMPO GIOVANNI) 31 March 1992 (1992-03-31)

- 2. The subject-matter of the present claims 1,2,4, and 6-15 can be considered as novel in that compositions comprising potassium nitrate, particulate sulphur and activated charcoal have not been described before.
 However, according to claim 3 and 5 only two of the three ingredients have to be present. Since the charcoal is not soluble and therefore not present in the mouth wash per se, the subject-matter of claims 3 and 5 lack novelty over D1 and D2 (cf. parts indicated in the search report).
- 3. First of all it is pointed out that since activated charcoal is insoluble in water, the mouth wash will not comprise any charcoal when ready for use.

Secondly it is pointed out that the use of sulphur as well as the use of potassium nitrate is known in the prior art for use in mouth and throat washes (cf. D1 and D2, parts indicated in the search report)

Therefore, the combined use - without showing any surprising or unexpected effect, cannot be considered as inventive and consequently the requirements of Article 33 (3) PCT have not been fulfilled.
